Neuropsychological Assessment an overview

Neuropsychological assessment also is likely to be useful for children with developmental or psychiatric disorders who warrant more in-depth assessment than that afforded by traditional psychoeducational testing. Finally, it warrants consideration when children display learning difficulties, behavior problems, or other adaptive failures that are suspected of having a biological basis.

Muriel Deutsch Lezak Neuropsychological Assessment PDF

A separate chapter reviews prepackaged and commercial test batteries used for general-purpose neuropsychological assessment, but the individual tests from these batteries are treated elsewhere according to the salient functions they examine. Following chapters on observational measurement techniques and on measures of personality and emotional status, the concluding chapter presents an array of techniques that have been used to identify motivational problems and malingering.
